Courses = Number of courses offered this semester for each campus, regardless of number of sections of each course.

Sections = Number of sections, excluding labs as all labs are associated with a course. Not sectional equivalents.

Reg = Number of course registrations. A student who registers in five courses would generate five course registrations.

Unduplicated Courses = Number of different courses offered this semester for each discipline or program, regardless of campus and number of sections.

Registration Attempts = Number of times students try to register in each course. Students may attempt to register in the same course numerous times. Students in limited enrolment programs,

such as in Health Sciences, are more or less guaranteed seats in the courses they need. Hence comparisons in registration attempts between open and limited enrolment may be misleading.

*The number of sections as reported in Banner does not accurately reflect Geography activity. Actual practice involves combining course sections for the lecture component of GEOG 110 and GEOG 120.

**Basic Occupational Education and Consumer & Job Preparation are not included.
