DNA Replication and Protein Synthesis

DNA Replication

Label:

- Okazaki fragments (use numbers to represent the order in which they are made)
- All strands 5' and 3' ends
- leading strand
- lagging strand
- DNA polymerase - Purpose:
- DNA ligase -Purpose:
- DNA helicase -Purpose:

Hint: L-links, P- pairs properly

Protein Synthesis:

What is involved in transcription?

-
-

What is involved in translation?

-
-
-
