

**is pleased to present its  
PROFESSIONAL SOCCER ACADEMY  
Fall 2010**

***About the Academy***

The academy provides developmental soccer training, from the grass roots level up, to the youth of New Westminster and surrounding areas.

We offer programs for youth between the ages of 5 and 14 from beginner to advanced skill levels. Our coaches focus on individually improving the athletes' endurance, agility and team work. Our goal is to build teams that will compete in the Whitecap Youth Series.

***Our Coaches***

The Soccer Academy provides developmental soccer training for Lower Mainland youth. Coaches focus on individually improving the athlete's skill, endurance, agility and teamwork. It will be run under the supervision of Max MacRae, one of BC's premier youth development coaches.

***Our Facility***

The academy is held in the Gymnasium at Douglas College's New West campus. The gymnasium fits two full size basketball courts and provides ample space to run several activities simultaneously. We are one of the only indoor soccer development programs in the Lower Mainland.
