

## Quick Guide to Academic Search Complete

EBSCO has recently changed the search interface of its databases. See *Article Indexes and Databases* on the Library's homepage to find other EBSCO databases  
<http://www.douglas.bc.ca/library/period.html>

This guide will cover a few of the new features:

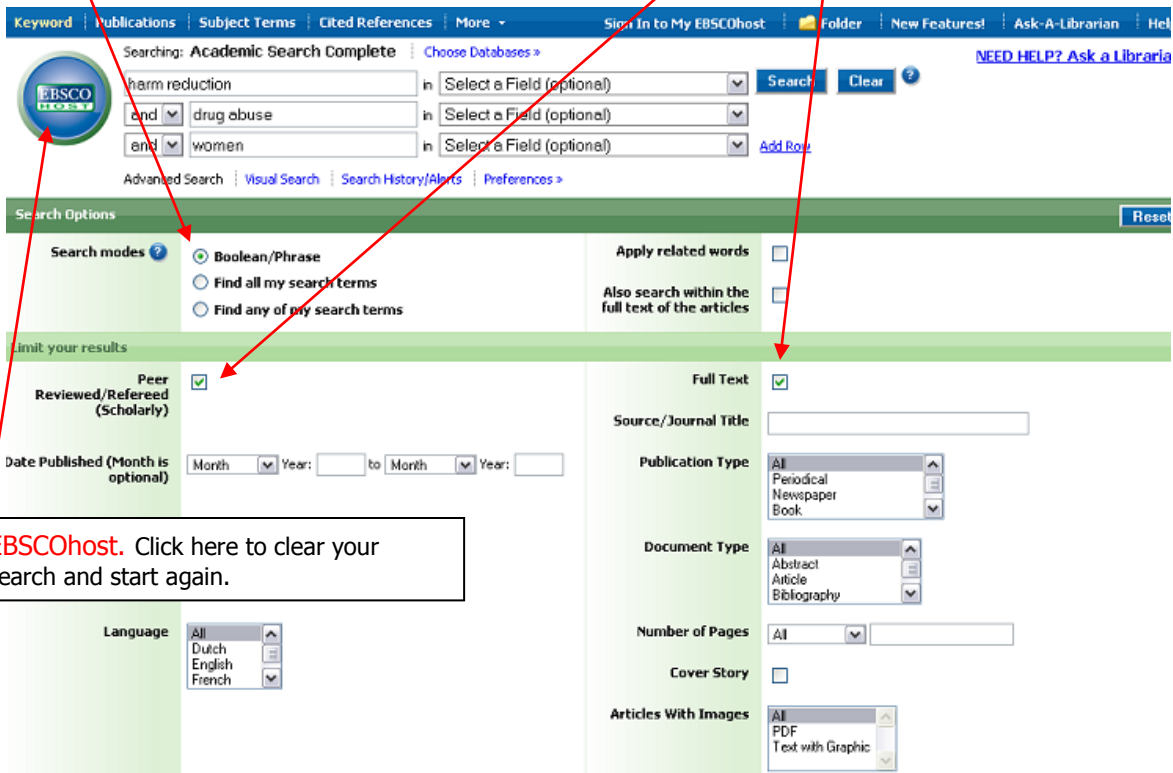

- New advanced search page
- New results list
- New bibliographic display

For more details on searching with the new interface, please refer to the *New Features* and *Help* tabs on the navigation bar of each database, or visit EBSCO *host* support  
<http://support.ebsco.com/ebscohost2/>

### Advanced Searching

**Search Mode.** Choose Boolean/Phrase searching to find the best results for your search.

**Limit.** Narrow your results to peer reviewed sources and full-text. More limits are available.

The screenshot shows the EBSCO Academic Search Complete search page. At the top, there is a navigation bar with links for 'Keyword', 'Publications', 'Subject Terms', 'Cited References', and 'More'. Below this is a search bar with the text 'Searching: Academic Search Complete' and a 'Choose Databases >' link. The search terms are 'harm reduction', 'drug abuse', and 'women', each in its own field with a 'Select a Field (optional)' dropdown. There are 'Search' and 'Clear' buttons. Below the search bar is a 'Search Options' section with a 'Reset' button. Under 'Search modes', 'Boolean/Phrase' is selected. Under 'Apply related words', 'Also search within the full text of the articles' is checked. Under 'Limit your results', 'Peer Reviewed/Refereed (Scholarly)' is checked, and 'Full Text' is also checked. There are also fields for 'Date Published (Month is optional)', 'Source/Journal Title', 'Publication Type', 'Document Type', 'Number of Pages', 'Cover Story', and 'Articles With Images'. A 'Language' dropdown is set to 'All'. Red arrows point from the 'Search Mode' and 'Limit' text boxes to the corresponding options in the search interface.

**EBSCOhost.** Click here to clear your search and start again.

## Search Results

**Clustering.** Narrow your results further by subject or source type.

**Folders.** Select your articles and add them to the folder for saving, printing, emailing or citing. View the contents here.
